

SRI NIVASPANNEER L M

AI Engineer

CONTACT

Tirunelveli, Tamil Nadu

+91 77087 80835

Srinivaspanneerlm@gmail.com

TECHNICAL SKILLS

Languages

JavaScript, TypeScript, Python, Java, C

Backend

FAST API, Node.js, Express.js, Next.js, REST API

Database

PostgreSQL, SQL

DevOps & Infra

Docker, Git, Github, Bash, Linux(Parrot os), Devstack, VSCode

AI & Machine Learning

Artificial Intelligence, Machine Learning, Large Language Models (LLMs), Prompt Engineering, Multi-Agent AI Systems, Knowledge Graphs, Explainable AI (XAI)

LANGUAGES

Tamil (Native) | English (Professional)

Profile

Final-year Computer Science Engineering student with experience building AI-driven platforms, developing award-winning hardware projects, and leading peer-learning initiatives. Currently building Aegis AI, an enterprise multi-agent insurance intelligence platform integrating LLMs, knowledge graphs, and graph neural networks. Conducted a tech bootcamp training 72 students in Cloud & DevOps and Python, and deployed infrastructure solutions across 30+ laboratory systems. Strong interest in AI system architecture, multi-agent systems, enterprise software engineering, and building production-ready products that solve real-world problems.

Projects

Aegis AI – Enterprise Multi-Agent Insurance Intelligence Platform (Ongoing)

FastAPI | Next.js | LLMs | Knowledge Graphs | Graph Neural Networks | Docker

- Architected an enterprise-grade multi-agent AI platform for the insurance domain, completing Phase 1 with scalable backend, frontend, authentication, and modular architecture.
- Implementing AI pipelines for Need Analysis, Premium Prediction, Risk Categorization, Personalization, OCR, Fraud Detection, and Explainable AI using LLMs, Knowledge Graphs, and Graph Neural Networks.
- Following a production-ready architecture with FastAPI, Node.js, Next.js, Docker, targeting a proprietary domain-specific foundation model for enterprise insurance intelligence.

PeltierPulse Air Conditioner | 2nd Place - Inter-College Hackathon 2024

Raspberry Pi Pico | Peltier Module | DC Motor | Python | Embedded C

- Built a thermoelectric air conditioning system using Peltier modules, Raspberry Pi Pico, and DC motor with smart automation, real-time sensing, and adaptive speed control.
- Achieved 60% energy savings, 75% cost reduction, and 65% environmental improvement through efficient thermal management, buck/boost converters, and overcurrent protection.
- Awarded 2nd Place at Inter-College Hackathon 2024 for the innovative thermoelectric cooling approach.

CubeAI Solutions - AI Engineering Intern

- Learned RAG (Retrieval-Augmented Generation) pipelines for enterprise document processing
- Implemented OCR solutions using computer vision and deep learning techniques
- Worked on Fine-tuning LLMs for domain-specific tasks and applications

EDUCATION

Thamirabharani Engineering College

B.E. Computer Science & Engineering

CGPA: 8.4 / 10 | Expected Graduation: May 2027

Schaffter Higher Secondary School

Tamil Nadu State Board | 2017 - 2023

ACHIEVEMENTS

2nd Place - PeltierPulse Air Conditioner

Inter-College Hackathon 2024

NPTEL - Cloud Computing (Elite + Silver)

Experience

Skill Forge - Founder & Lead Instructor

Peer-Learning Bootcamp | Thamirabharani Engineering College

- Founded and led a student-driven tech bootcamp guiding 72 members through structured sessions in Cloud & DevOps and Python programming.
- Taught Cloud & DevOps fundamentals including AWS/Azure/GCP networking, VPC/subnets, load balancing, VPNs, Terraform, Docker, and Infrastructure as Code.
- Delivered hands-on Python curriculum covering core programming, automation scripting, and real-world problem-solving for infrastructure and cloud automation.
- Designed curriculum, created learning materials, produced YouTube tutorials, and built a certificate verification platform for the student community.

Education Details

Bachelor of Engineering in Computer Science & Engineering

Thamirabharani Engineering College, Tirunelveli

CGPA: 8.4 / 10 (up to 6th Semester) | Expected Graduation: May 2027

- Relevant Coursework: Data Structures & Algorithms, Operating Systems, Computer Networks, DBMS, Embedded Systems, IoT
- Active member of coding club and participated in multiple hackathons and technical symposiums
- Peer mentor for junior students in programming fundamentals

Certifications & Awards

- 2nd Place - PeltierPulse Air Conditioner - Inter-College Hackathon 2024
- Founder - Skill Forge Tech Bootcamp
